MEASURES TO IMPROVE ACCESS TO WATER IN NORTHERN LEBANON
Safe Health and Water Management

Elena Apollonio
Metropolitan city of Turin

CONTEXT

1.BACKGROUND

2.PARTNERSHIP

3.THE PROJECT

3.a. OBJECTIVES

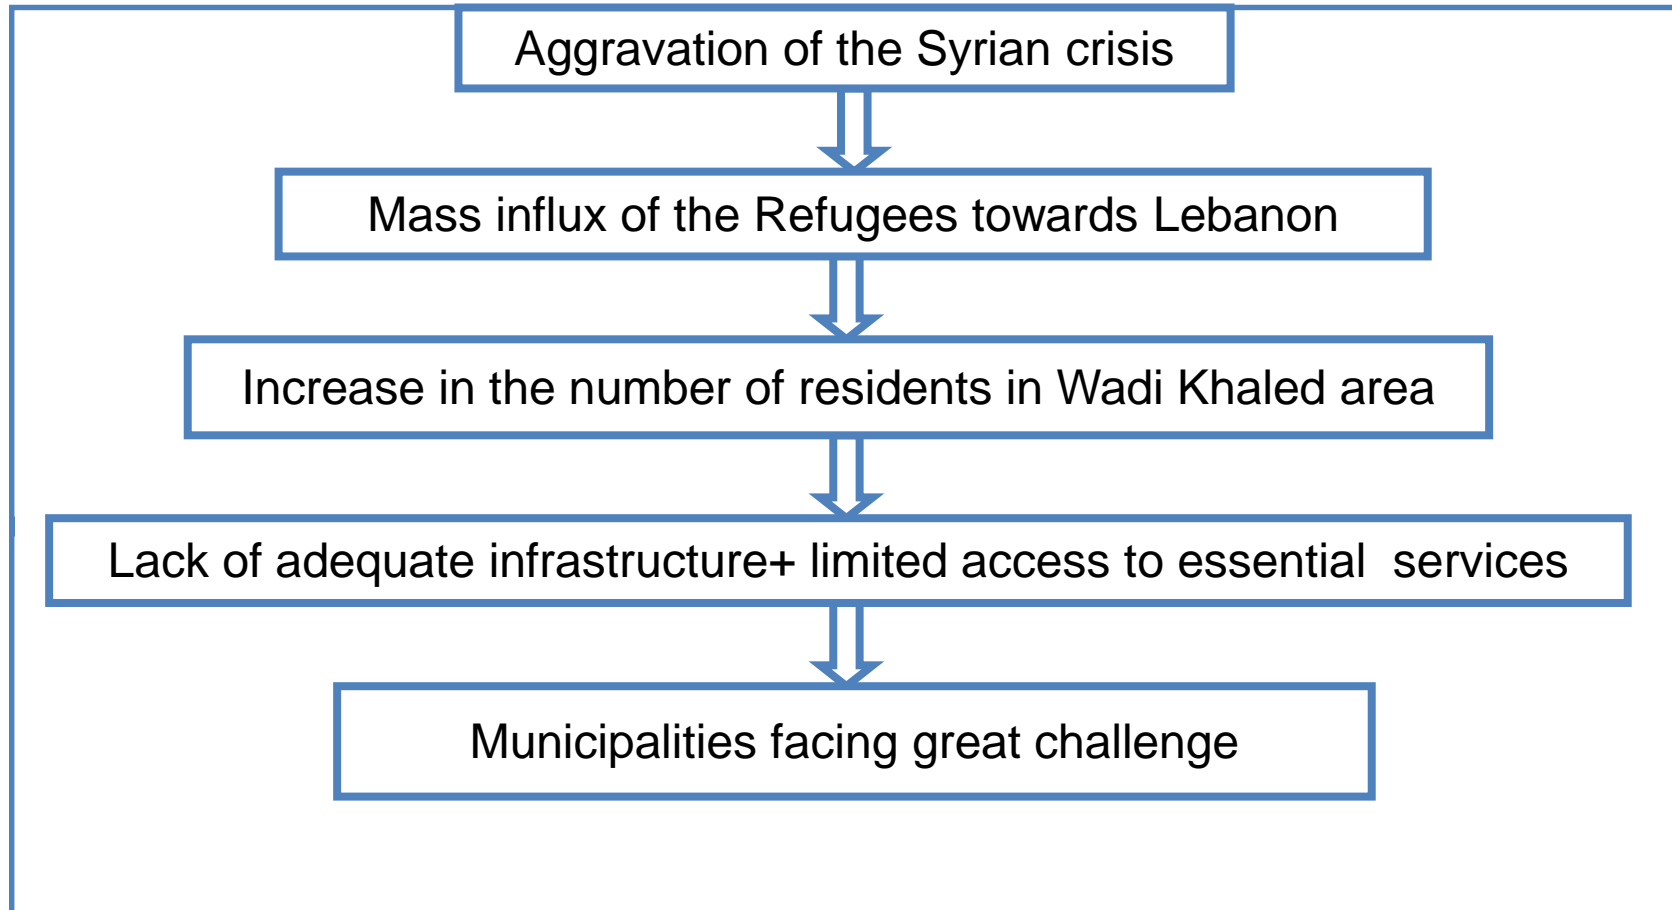

3.b. ACTIONS

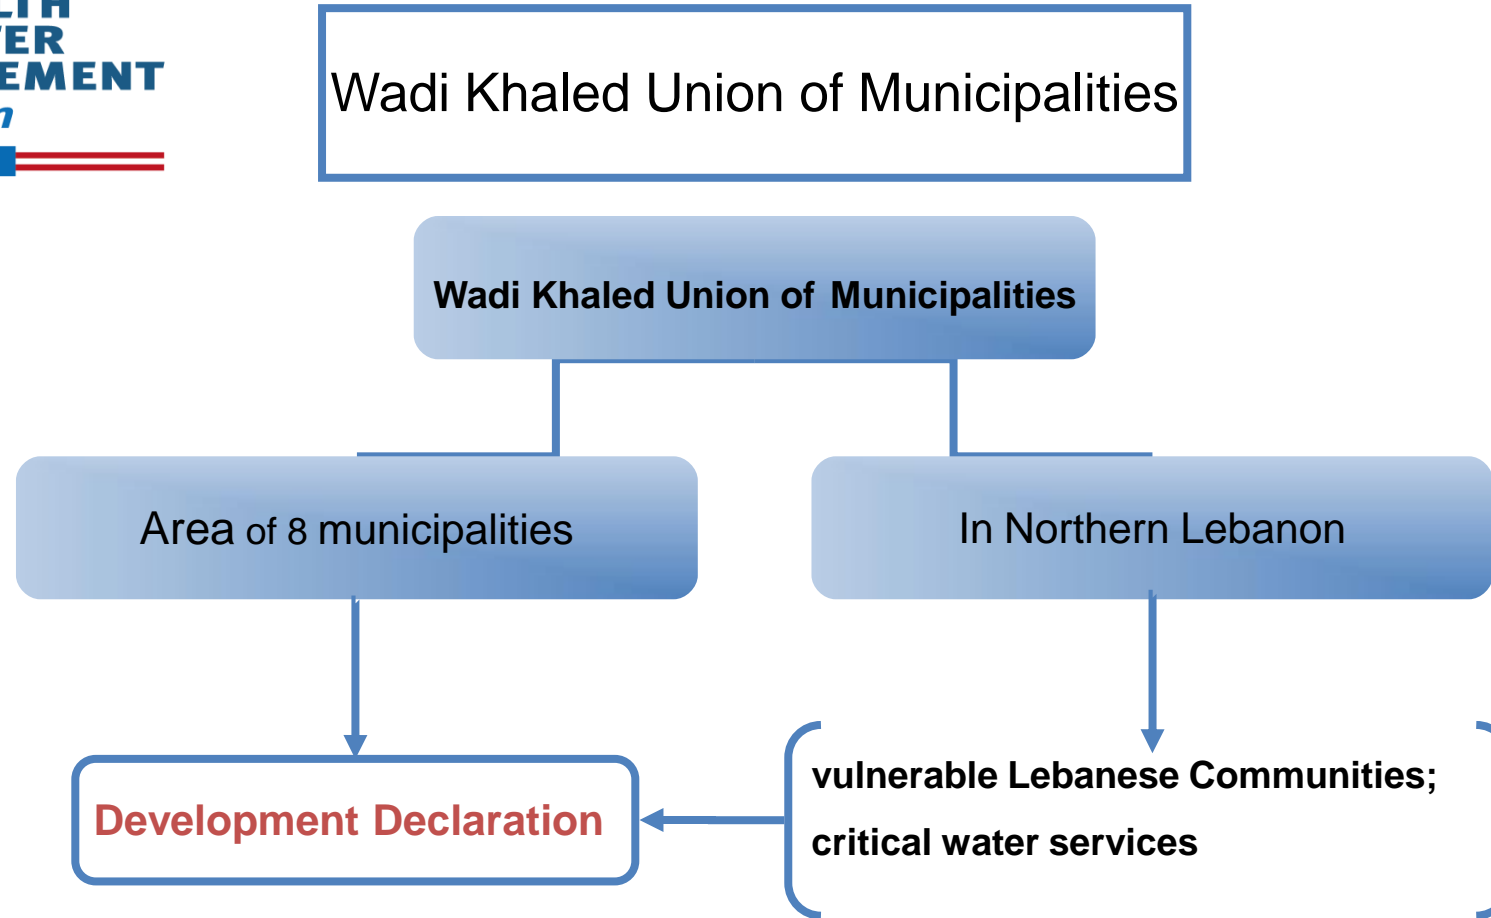

3.c. TIMETABLE

3.d. BUDGET

1. Background

**Urgent call for enhanced cooperation:
UNDP intervention**

2. Partnership

Lead partner:

-Metropolitan City of Turin (IT)

Partners:

-Municipality of Turin (IT)

-Coordination of Municipalities for Peace (IT) - **CO.CO.PA. (IT)**

-United Nations Development Programme (UNDP)

Technical Partner:

-Metropolitan Society for the Water of Turin – SMAT Group

Project funded by A.T.O.3 as part of initiative in support of decentralized cooperation promoted by local authorities belonging to A.T.O. 3.

Metropolitan City of Turin

- “The Metropolitan City of Turin is a wide second level local authority which replaced the former Province of Turin from January 1, 2015, thanks to the Italian law no. 56, 2014”
- **Number of Municipalities:** city of Turin + 315 other municipalities
- **Population:** 2,293,340
- **Area(km²):** 6,829

- **Main functions:**

- Adopting and updating the metropolitan territory Strategic Plan annually
- Organising the structure of the coordinated systems for the managing of the public services of general interest
- The local planning, including communication facilities, networks of services and infrastructures, in the metropolitan community interest.
- The traffic management and mobility policies, ensuring the compatibility and the coherence in the municipal town
- Promoting and coordinating the economic and social development
- Promoting and coordinating the information and digitalisation systems in the metropolitan area.

3. The Project

- **Location:** Hnaider
- **Early-stage work** done by UNDP:
 - ⇒ completed a Water Network in the village
 - ⇒ rehabilitated Hnaider water reservoir without success in delivering water to all the residents

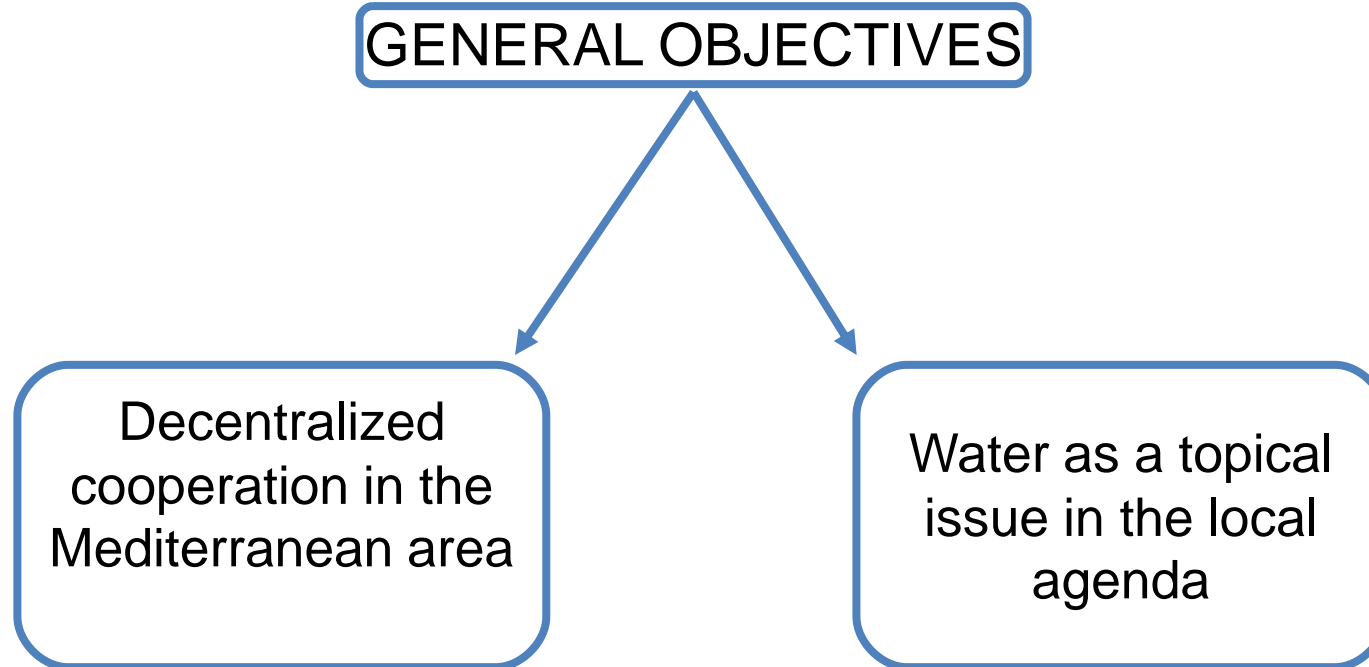

Necessity of building a new Elevated Water Tank with a bigger capacity and a highest elevation

Awareness and education actions underlining the meaning of decentralized cooperation and granting the involvement of citizens in the correct use of water

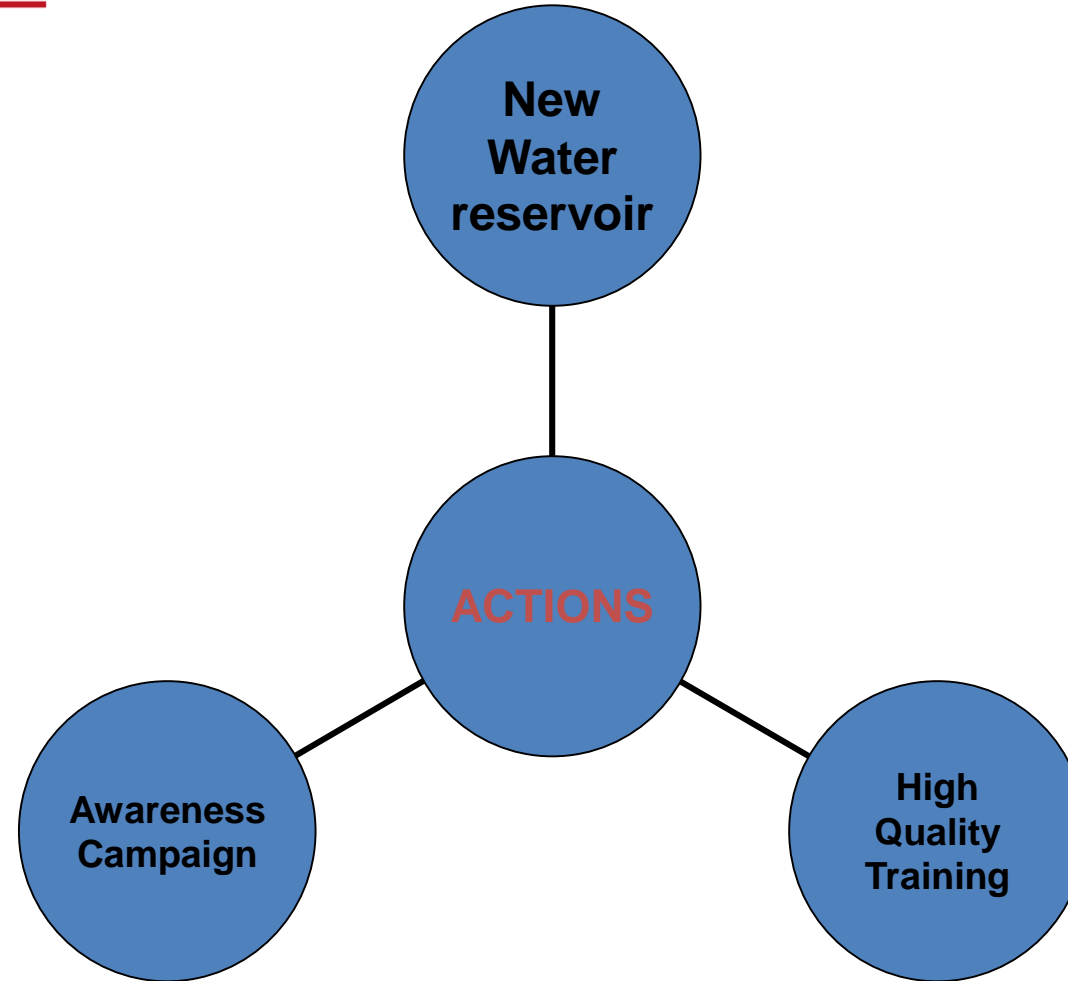

3.a. Objectives

SPECIFIC OBJECTIVES

- Increase reliable and sustainable access to water for Lebanese citizens
- Improve water management practices
- Respond to water issues arising from the influx of Syrian refugees
- Working in partnership with the people of Wadi Khaled
- Increase awareness and knowledge about the water and Syrian Refugees current situation in the area and illustrate the actions of the project.

3.b. Actions

3.c. Timetable

Project Length: 24-30 months

- Preparatory visit
- Communication events
- New Reservoir Hnaider Project
duration: 10 consecutive weeks without
weather interruption
- High quality training in Turin from the
27th of March until the 31st of March.

3.d. Budget

TOTAL COST(EURO) : 500,000.00

ATO3	200,000.00
Partners Cash Contribution	75,000.00
Partners Enhanced Contribution	225,000.00
Total Cost (euro)	500,000.00
